

# Shoots Key Stage 2 Newsletter

This week at West the playground has begun to be re-developed to improve the outside activities for the children. As part of this they came this week to change some of the playground markings. As you can see from the photos below the children have different games they can play on the markings.

Also we have opened up Jade room for expressive arts and in particular dressing up. The children can go over and choose different outfits to dress up in, as you can see from the photo.

A lot of the children have been enjoying going to music and movement sessions, signing sessions, cycling and piano lessons. All these activities add to them having a complete educational experience.

Silver, Pearl and Yellow class have been learning about Chinese New Year and they have been tasting different Chinese food and learning about the traditions that are associated with this. Silver class made some lovely Chinese lanterns, as you can see from the photograph.

Gold, Sapphire and Diamond class have been learning about healthy eating and the foods that are good for particular parts of the body. They have been cooking lunches with vegetables and making pictures of healthy lunches. In Gold class they have been linking the food we eat to the different parts of the body it helps and talking about what food we need to eat to have a healthy heart, brain, muscles and bones.
