Pearl class have loved the special dance sessions all children at west have been having every Thursday this term in Jade room. Our dance teacher Laura got out some special costumes this week and the children loved putting them on. She also used other props such as pompoms/shakers and they certainly made our dancing much more colourful and fun. We really noticed how the children's instruction following improved with these lessons and as the weeks passed on, the transition from class to Jade back to class improved. We also learned a lot of fun dance moves and had plenty of laughs.

Children in Diamond class today had a fun water play time in their outside area and invited some of their friends in Ruby class to attend. Even the adults got involved! Diamond and Sapphire children have also been excited about their transitions to their new schools next school year. The children's community awareness on walks in Pearl class is improving as we saw a person picking up litter on a recent walk this week and we discussed how we should always put our litter in the bin to keep our local parks beautiful, clean and safe.
