

Treasure week

We hope you are all well and staying safe.

This half term, our topic would have been Treasure Island. This week's focus is on treasure.

Watch this fun cartoon on Youtube about some friends finding treasure

<https://www.youtube.com/watch?v=0C4gN9N-EVE>

- Create a time capsule and bury it in your garden. Put in something to remember the date and things that will have memories when you dig it up.
- Create treasure chest crafts 2D or 3D

- Create a map to look for buried treasure

- Go on your own treasure hunt. (Parents hide items in the garden/around the house for your children to find).
- Create pots of gold at the end of a rainbow.

- Look at money- match and name the different coins.
 - can you count your pennies?
 - Look at the different coins and put them in order or worth.
 - Can you say how many pennies will equal 5p, 10p or 20p?

There's lots of lovely ideas on Twinkl about coins- go into your log in and type in the search bar **COINS**; choose the worksheets to print that you will most enjoy doing.
