

Weekly Learning Ideas- 1/5/2020

Make a Den! Sheets, blankets, clothes line, cushions, pegs- you can make your own DIY dens at home with whatever you have. When children are inside you can explore books, fairy lights, glo sticks, light up toys or torches. Try putting on some relaxing music and make it a calming quiet space.

Nb. Please supervise children particularly where there is a risk of items falling and ensure electrical items/glo sticks etc are used under supervision and not put in the mouth or underneath bedding. If you are unsure about the safety of building a den try buying an indoor play tent.
