

LEAVES NEWSLETTER

Welcome to the Leaves weekly newsletter where you can catch up with our pathway!

This half term our thematic units are all about superheroes!

Superheroes give us the opportunity to think about a range of topics within our science curriculum

Every half term we ask a question in each class and year group. This half term our questions are:

What are my body's super senses?

What does a super hero need to stay healthy?

How do superheroes powers work?

In English we are exploring stories from other cultures. This gives us an opportunity to not only continue to build our english skills but also to engage with our multicultural society and link with our PSHE learning.

In Cookery we have linked up with our superheroes topic to think of recipes that include "superfoods".

Stars Of The Week

Emerald - Amaan for being very grown up in new situations.

Ruby - D'shaun for playing beautifully with another child outside

Amber and Opal - Zahra, Dillon, Alex and Maha for helping to run the red nose day tuck shop on Friday.

This week Ruby Class have planned and designed our own magic carpet and written a shopping list of all the things we would love to collect on our travels just like granny! In Cookery we made overnight oats with blueberries - Yum!

We loved celebrating Red Nose Day today! We have been on a scavenger hunt, decorated biscuits and had a disco in the hall. Thank you all for sending in the £2 donation.

Amber class have started their new book 'The Hungry Hyena' and have been planning and writing fact files about our favourite animals in English. We have also been enjoying some non fiction comprehension this week, learning all about recycling. We made overnight oats in cookery and enjoyed eating them for breakfast on Thursday. We have been continuing to learn the twist in PE and we have learnt the importance of saying sorry in PSHE.

We have had a super week in Emerald Class. We have been working hard learning about where Handa and her Hen live. We are excited to write our fact files our Kenya. In Maths we have been comparing amounts and learning the mathematical symbols that represent this. We had a fun Birthday Party and played party games. They were really fun!

Opal class have been working on their topic of "how do superheroes powers work?" and continuing to think about friction. Next week we will think about air resistance and how superman can fly! We have been learning about systematic number bonds in maths and thinking about how this helps us in every day life. We had a great day celebrating red nose day today, using water pistols to hit red noses outside in the sun and going on a scavenger hunt. We would like to say thank you to our families for their donations.
